Dynamic Frontend Developer with expertise in React.js, adept at crafting scalable user interfaces and integrating frontend components with backend APIs. Proven capability to learn new tech stacks swiftly. Skilled in leveraging Generative AI, staying abreast of industry trends, and optimizing web application performance.

WORK EXPERIENCE

Western Railway Diesel Shed, Ratlam
Apprentice

November 2016 - November 2018

Job responsibilities:

- Demonstrated the ability to manage and analyze complex datasets, contributing to the system operations' efficiency and performance improvements.
- Recognized for delivering high-quality solutions in a fast-paced environment, showcasing strong technical competence and multitasking skills.

Axiom Pursuits

HR Consultant

January 2023-present

Job responsibilities:

- Managed end-to-end recruitment pipeline independently, ensuring efficient and error-free processes.
- Developed strong communication skills through direct interaction with client companies, enhancing collaboration.
- Sourced and filtered candidates effectively, optimizing selection rates and client satisfaction.
- Coordination of interviews and maintaining continuous communication channels with multiple stakeholders.

PROJECTS

1. Chai-iayah | 🌐 | 🗄️

JavaScript | HTML5 | CSS3 | Git | Photoshop

- Developed an interactive product showcase using HTML5, CSS3, and JavaScript, featuring a media scroller for seamless browsing experience.
- Implemented user-friendly navigation with an intuitive menu, making it easy for users to explore chai, coffee, and snack categories.
- Designed eye-catching sale banners to highlight special deals, enhancing user engagement.
- Integrated placeholder functionalities for shopping cart and user login pages, showcasing ability to plan for dynamic features.
- Utilized Photoshop for design elements and Git for version control, ensuring collaborative development and design consistency.
